NEW YEAR NEW LODGE

WHITEACRES tackle lodge has moved and it's even bigger and better.

The extra floor space will allow for a wider range of the latest tackle and baits to be displayed to complete the angling experience.

The existing tackle shop has been totally transformed into a brand new fisherman's cafe overlooking Pollawyn so you can enjoy a breakfast and then a short walk to the lakes.

SATELLITE

Plans are well underway too for a new satellite tackle shop situated down by the site of the newer lakes for those last minute bait and tackle items.
