

**KEY FEATURES**

Gripfit ergonomic handle designed to fit the hand and reduce fatigue, with directional casting pads and sculptured butt grip

Angled reel seat bringing the lip of your reel spool closer, aiming the centre of the spool at the butt ring for improved casting, and bringing the reel seat directly onto the blank for maximum transmission.

Multi Dynamic blank to increase feeling, smoother power transfer under load, and reduce radial torque to aid casting accuracy and SSGS line guides 50 percent lighter on average than conventional rings, plus they won't crack or chip.

# A Reel Hot Rod!

WHITE ACRES FISHERY MANAGER CLINT ELLIOTT PUTS THE BRAND NEW ABU GARCIA SUVERAN MATCH SSGS 13 SPORT ROD THROUGH IT'S PACES....

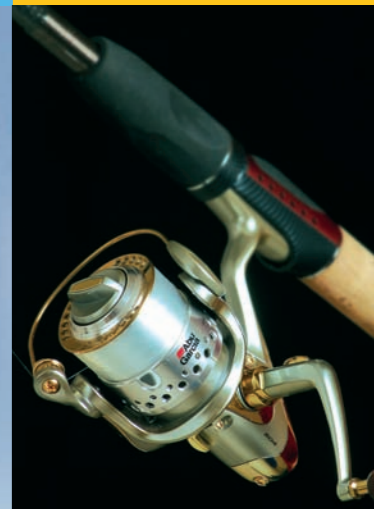

**Clint's Verdict:**

"After several decent carp I can say that the new handle, blank and line guides all add up to a class rod with innovations that really do make a difference."

ABU Garcia Suveran SSGS 13' Sport Rod RRP £199.99

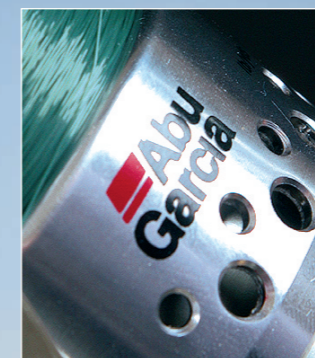

**TRIED AND TESTED**

**FANTASTIC PRIZE!!!**

ABU Garcia have been making rods for years so when they get excited about a new product I was eager to have a go with the 13' top of the range model and made a date with some willing 6-8 lb carp! I set the rod up with a 6 lb breaking strain main line, and a two swan shot waggler rig. In hand my first impression was how crisp the blank was. It immediately felt very comfortable and well balanced. On my first cast towards the margins of an island, in an awkward Easterly side wind I was overwhelmed by how well it cast and the little effort required to flick the float to the target

area. Subsequent casts confirmed to me how easy it was to cast accurately to the same spot each time. It didn't take me long to test out the rod's fish handling qualities either - the reaction time is instant picking up line superbly - I was amazed at how easy it was to get a

big fish in. I could feel every nod of the fishes head, the rod was communicating with me and I was always in control of what was happening under water. The ergonomic handle and reel seat is a major design development and it really does feel comfortable. Playing big fish was achieved without any strain on the wrist - very important when bagging! The angle of the reel seat ensures that the line leaves the reel at the correct angle to enter the first eye, and this positioning also means those with shorter fingers can easily reach the lip of the spool with a finger.

We have one of these fantastic rods to give away to the author of our **FeedBack** letter of the month in the next issue, so get writing!

**MAIN:** Clint enjoys a spot of fishing with the new ABU Garcia Suveran SSGS 13 Sport.
